# Redefining Growth

## ***Innovation \_driven solution***

- ❖ *Harnessing cutting –edge technology to transform financial system and investment opportunities.*

## ***Collaborative Growth***

- ❖ *Bringing together industry leaders and innovators to foster partnership and drive progress.*

## ***Global Financial Empowerment***

- ❖ *Making financial tools and investments more accessible and efficient for individuals and businesses worldwide.*

# What is Forex ??

***Forex trading, also known as foreign exchange trading, is the act of buying and selling currencies with the goal of making a profit from changes in exchange rates. It involves trading currency pairs like EUR/USD, where one currency is exchanged for another. The forex market is decentralized and operates 24 hours a day, five days a week, making it highly accessible to traders around the world. It is the largest and most liquid financial market, with daily trading volumes exceeding \$7 trillion. Participants in the forex market include banks, financial institutions, corporations, hedge funds, and individual traders. Forex trading is influenced by factors such as economic indicators, interest rates, geopolitical events, and market sentiment. Traders use technical and fundamental analysis, along with risk management strategies, to make informed decisions and manage potential losses.***
